

BARBELLO® CLIPPER LUBE

HIGH-LEVEL DISINFECTANT

YOU CAN CLEAN WITHOUT DISINFECTING, BUT YOU CANNOT DISINFECT WITHOUT CLEANING.

BARBELLO® CLIPPER LUBE containing Quadex® (V6) is a HIGH-LEVEL DISINFECTANT for disinfecting and cleaning of scissors, hair clippers and electric shears. It is used by hairdressers, stylists, animal groomers and veterinarians. Its 7-in-1 formulation ensures that all hair cutting equipment is free of infectious and pathogenic microbes before each use. It cleans, disinfects, lubricates, cools the equipment, protects the metal, displaces moisture and inhibits rust (while not attacking rubber seals or causing them to brittle).

DIRECTIONS FOR USE:

BARBELLO® CLIPPER LUBE should only be used after cleaning of scissors, electric shears and hairclipper blades have been cleaned with BARBELLO® CLIPPER CLEAN. Switch off and unplug all electrical equipment first. Using proper PPE, hold instrument in a downward position away from eyes, skin and clothing, lubricate blades by holding nozzle of can 5cm to 20cm away from blades. Make sure that the product gets between the teeth of the blade and covers entire blade surface. Do not allow the clipper lube to run into the housing. Leave surface moist and allow to air dry.

Quadex® (V6) exhibits the latest features desired of a modern disinfectant.

- NON-TOXIC
- NON-STAINING
- NON-IRRITANT
- NON-CORROSIVE
- pH NEUTRAL
- FAST-ACTING
- NON-HAZARDOUS
- BROAD-SPECTRUM
- EFFICACY
- WATER BASED
- REMOVES BIOFILM
- ENVIRONMENTALLY SOUND
- NEUTRALISES (organic and inorganic odours and malodours)
- RESIDUAL (30-day laboratory tested residual - unlike most disinfectants that merely kill and evaporate)

Barbello® Clipper Lube is available in:

- 250ml – Cans
- 500ml – Cans

Ambit of use:

- A/S B/S C/S

"ABSOLUTE PEACE OF MIND"
