

SPACHEM

JACUZZI, WHIRLPOOL & SPA BATH SYSTEM CLEANER

YOU CAN CLEAN WITHOUT DISINFECTING, BUT YOU CANNOT DISINFECT WITHOUT CLEANING.

SPACHEM CONCENTRATE containing Quadex® (V6) is a commercial and domestic INTERMEDIATE LEVEL DISINFECTANT/DEGREASER for spas, gyms and hotels. It has been specifically formulated to maintain, clean, sanitise, disinfect and deodorise complete bathtub systems, including the circulation system, the bath, filter system, piping, pumping systems and cover of jacuzzis, hot tubs, steam baths and spa baths. It helps to safely remove soap scum residue, body massage oil, bath oils and grease, mould, mildew, dirt, grime, mineral deposits, bathtub rings and biofilms.

DIRECTIONS FOR USE:

Bath: It is essential to regularly clean and sanitise your whirlpool bath in order to minimise the growth of bacteria and to control the build-up of bath deposits such as soap & body oils that can accumulate in the pipework. To clean the whirlpool bath, ensure the water level is at least 100mm above the submersible pump nozzle, note the amount of litres used to do this, pour 5/10ml per litre QUADEx® SPACHEM into the water and activate the system. After a minimum of 15 minutes of circulating the entire system stop the pump. Use the same water in the tub to clean the entire bath using a soft sponge or cloth. Use neat QUADEx® SPACHEM on a sponge for stubborn rings, dirt and grime. For hard-to-reach areas around the nozzles and jets use an old toothbrush. If there is too much foam, try using less detergent but increase the running time to 15 minutes to allow for proper disinfecting. Once cleaned, drain the water and remove the filter. Fill the tub with fresh water above the intake jet. Let the system circulate and rinse. Drain the rinse water completely. Your tub is now fresh, disinfected and ready to use.

Quadex® (V6) exhibits the latest features desired of a modern disinfectant.

- NON-TOXIC
 - NON-STAINING
 - NON-IRRITANT
 - NON-CORROSIVE
 - pH NEUTRAL
 - FAST-ACTING
 - NON-HAZARDOUS
 - BROAD-SPECTRUM
 - EFFICACY
 - WATER BASED
 - REMOVES BIOFILM
 - ENVIRONMENTALLY SOUND
- NEUTRALISES (organic and inorganic odours and malodours)
• RESIDUAL (30-day laboratory tested residual - unlike most disinfectants that merely kill and evaporate)

SpaChem is available in:

- 1 Litre - Easy dose bottle

Fragrance:

- Lavender

Feature:

- Penetrates Biofilm
