

STERIGEL

HIGH-LEVEL WATERLESS HAND SANITISER

YOU CAN CLEAN WITHOUT DISINFECTING, BUT YOU CANNOT DISINFECT WITHOUT CLEANING.

STERIGEL, A HIGH-LEVEL SANITISER containing Quadex® (V6), is the recommended professional hand hygiene method for use in the healthcare environment such as hospital wards, burn units, laboratories, health professional consulting rooms and surgeries, mortuaries, veterinary clinics, beauty, and the aesthetics industry.

DIRECTIONS FOR USE:

Apply 2-3ml of product to dry palms. Spread evenly across hands, using a washing motion until dry. One-step waterless procedure, no rinsing required. If you have applied enough STERIGEL, it should take at least 10-15 seconds of rubbing before your hands feel dry. Apply before entering high risk areas, touching patients or after using the toilet. Use to wash feet after showering at the gym, after shaving or as an after-wax lotion to prevent infection.

Quadex® (V6) exhibits the latest features desired of a modern disinfectant.

- NON-TOXIC
- NON-STAINING
- NON-IRRITANT
- NON-CORROSIVE
- pH NEUTRAL
- FAST-ACTING
- NON-HAZARDOUS
- BROAD-SPECTRUM
- EFFICACY
- WATER BASED
- REMOVES BIOFILM
- ENVIRONMENTALLY SOUND
- NEUTRALISES (organic and inorganic odours and malodours)
- RESIDUAL (30-day laboratory tested residual - unlike most disinfectants that merely kill and evaporate)

Sterigel is available in:

- 100ml
- 500ml
- 5 Litre - Bulk

Fragrance:

- Citron

Ambit of use:

- A/H B/H
