

DENTAL LUBE

CLEANSING, DISINFECTING, LUBRICATING, AND COOLING

YOU CAN CLEAN WITHOUT DISINFECTING, BUT YOU CANNOT DISINFECT WITHOUT CLEANING.

DENTAL LUBE containing Quadex® (V6) is a HIGH-LEVEL DISINFECTANT which uses a lubricant that was specially designed for use in military artillery and by adding our active ingredient, which makes this product far more superior to any dental lube currently on the market. It is used by dental technicians, oral hygienists and dentists. Its 7-in-1 formulation ensures that high-speed turbine hand pieces, and low speed attachments and heads, are free of infectious and pathogenic microbes before each use. It is used for cleansing, disinfecting, lubricating, cooling the equipment, protecting the metal, displacing moisture, is rust inhibiting while not attacking or causing rubber seals to become brittle.

INSTRUCTIONS:

Disinfect and lubricate all high-speed turbine hand pieces, low-speed attachments and heads with **QUADEX® DENTAL LUBE** prior to autoclaving of equipment, or between patients throughout the day.

Quadex® (V6) exhibits the latest features desired of a modern disinfectant.

- NON-TOXIC
- NON-STAINING
- NON-IRRITANT
- NON-CORROSIVE
- pH NEUTRAL
- FAST-ACTING
- NON-HAZARDOUS
- BROAD-SPECTRUM
- EFFICACY
- WATER BASED
- REMOVES BIOFILM
- ENVIRONMENTALLY SOUND
- NEUTRALISES (organic and inorganic odours and malodours)
- RESIDUAL (30-day laboratory tested residual - unlike most disinfectants that merely kill and evaporate)

DENTAL LUBE is available in:

- 500ml - Cans

Ambit of use:

- C/S D/S

GMDN Code:

- 60795
