

HAND RUB

HIGH LEVEL HAND SANITISER

YOU CAN CLEAN WITHOUT DISINFECTING, BUT YOU CANNOT DISINFECT WITHOUT CLEANING.

HAND RUB containing Quadex® (V6) is a HIGH-LEVEL HAND SANITISER and is the recommended method of hand hygiene in any healthcare setting when hands are not visibly soiled. Enriched with a balanced blend of specially formulated moisturisers that make our product unique and pleasant to use whenever frequent applications are necessary. **HAND RUB** provides protection against irritation and maintains the skins natural oils and moisture levels without stickiness. It is perfect for use at health institutions, consulting rooms and surgeries of healthcare providers, specialists and health professionals, pathologists, sluice rooms, mortuaries, veterinary clinics, and aesthetics industries.

DIRECTIONS FOR USE:

Apply 2-3ml of product to dry palms. Spread evenly onto hands, using a washing motion until dry. One-step waterless procedure, no rinsing required. If you have applied a sufficient amount of **HAND RUB**, it should take at least 10-15 seconds of rubbing before your hands feel dry. Apply before entering high risk areas, touching patients or after using the toilet.

Quadex® (V6) exhibits the latest features desired of a modern disinfectant.
